Information for the Provisional Psychologist

The Provisional licensure period is:

- **Legislated to be two years from the date of initial licensure** – with the possibility of one extension with reasonable justification and approval from the Registration Committee.
- **A period of supervision and not training** – it is a time to demonstrate your competence and readiness to enter into independent practice.
- **A period of direct supervision throughout the entire Provisional period** – thus even after one has completed their 1500 hours they must still be under the direct supervision of their supervisors at the rate of 6 hours for each 160 hours of practice until Full Practice is awarded.
- During this period of licensure one must complete the 1500 hour supervised practice requirement, the EPPP and the SCP established oral examination before one can be awarded a license to practice independently or Full-Practice licensure.

Once admitted to the Register as a Provisional Psychologist you will be required to submit the following document (this document must be approved by the Registration Committee of the College before you may begin to count hours toward the 1500 hour supervised practice requirement):

- A “Supervision Plan” which clearly outlines the goals and objectives to be met during supervision. The Supervision Plan must be signed by all supervisors (primary and secondary).

During the Provisional licensure period the following must be submitted/completed:

- Supervision/practice logs which are endorsed by at least the primary supervisor and yourself at the mid-point (750 hours) and end-point (1500 hours) of the 1500 hour supervised practice period.
- “MRA Assessment Rating Form” – completed by the primary supervisor or all supervisors together at the mid and end points of the 1500 hour supervised practice period.
- The Examination for the Professional Practice of Psychology (EPPP).

Once you are approved for the SCP oral examination, which is the final requirement you must meet before you are eligible for Full Practice licensure, you must submit:

- An Authorized Practice Endorsement (APE) application if relevant. The application includes a rating by your supervisor with regard to your competence to diagnose. The forms must be signed by the supervisor and yourself.
- Materials for the examination – **5 copies of each** of the following: an assessment sample, an intervention sample, a professional statement, and a current curriculum vitae. Work samples must be cosigned by your supervisor. If you are applying for the (APE) your work samples must include diagnoses.
