

Join us!

This two-day seminar for clinical professionals will focus on providing research-based and practical information to inform assessment and intervention. Highlights include recent research on assessing ASD across the lifespan, potential assessment tools, and practical tips to enhance assessment and intervention, interprofessional collaboration, and intervention implications. Day 1 will focus on school-aged individuals, while Day 2 will focus on considerations for adults.

This seminar has been approved by the Canadian Psychological Association. Continuing Education Credits: 12.5 (6.25 per day)

***Please see our website (www.idas.org) for more information.**
