

**3%** of Indian children struggle with mood disorders\*

**9%** struggle with anxiety disorders \*

**5%** exhibit disruptive behavior\*

If you are a professional who helps children and adolescents struggling with emotional difficulties, disruptive behavior and social impairment, Pearson has the right scientific solution for you.

Launching:

## Beck Youth Inventories, Second Edition, India (BYI-II<sup>INDIA</sup>), on our Digital Assessment Platform - Q-global

BYI-II<sup>INDIA</sup> helps identify the following in children and adolescents aged 7 to18:

Depression

Anxiety

Anger

Disruptive behavior

Self-concept

BYI-II<sup>INDIA</sup> is adapted and standardized for use with Indian children and adolescents. BYI-II<sup>INDIA</sup> is based on the internationally popular BYI-II that is currently used in the West by school, mental-health and allied professionals, in educational and clinical settings.
