

Dear respected colleagues,

You are invited to participate in an online survey about diagnostic decision making and clinical practice in military mental health. You will be asked to provide your diagnostic impression and treatment recommendations for three clinical vignettes, and respond to survey questions about diagnostic decision making in your current practice. You are eligible to participate if you are a regulated mental health professional. We know your time is valuable, and we appreciate your input on this important research. To thank you for your participation, you will receive a \$5 Amazon gift card. The survey takes approximately 45-60 minutes to complete. To participate, please click the following link:

http://uottawapsy.az1.qualtrics.com/jfe/form/SV_8wB0dMyy0lp9GLz

We would also appreciate if you would share the survey link with your professional colleagues. This helps us obtain representation of mental health professionals from across the country. This study is being conducted at the University of Ottawa, and has received ethics approval from the University of Ottawa Research Ethics Board. If you have any questions or comments about the study, please contact Stephanie A. Houle, PhD Candidate in Clinical Psychology at the University of Ottawa at shoul062@uottawa.ca or Andrea R. Ashbaugh, Ph.D., C.Psych, Associate Professor, School of Psychology, Director of the Cognition and Anxiety Studies Laboratory (andrea.ashbaugh@uottawa.ca, (613)562-5800, x. 4813.
